

HAMILTON
SECONDARY COLLEGE

Respect. Excellence. Integrity.

Clubs & Groups

2026

Clubs at Hamilton

Hamilton offers a variety of lunchtime and afterschool clubs where students can make new friends, have fun and find and develop new interests.

Homework Club

Every Tuesday and Thursday after school from 3.15-4.30pm.

Students can go to the library for extra help from teachers or to work in study groups.

K-POP Club

Students with similar interests can come together and share music and ideas and have a safe place to explore the genre as well as make friends that they might not have otherwise. Students would listen to music, watch videos, play games and share their ideas.

Astronomy Club

Astronomy Club will allow students to explore the night sky in our very own Planetarium. They will discover the wonders of Dreaming stories, constellations, planets, distant galaxies, eclipses and many other phenomena within and beyond the Solar System and Milky Way.

Rocketry Simulation Club

Students use the Kerbal Space Program to design and launch their own staged rocket creations and achieve orbit and beyond.

Badminton Club

Badminton Club is a chance for students to play Badminton tournaments and hone their racquet skills.

Book Club

For students who love a good book and sharing their love of reading, the Book Club is the place to be. Students also take part in the Premier's reading Challenge as part of Book Club.

Rock Climbing Club

Using Hamilton's Bouldering and Rock Climbing Wall, students work together to hone their climbing skills.

Science Club

Students develop their science and experiment skills as they develop and do their own mini-science experiments.

Dance Performance Team

Students with a special interest in Dance create and rehearse dances to be performed at school events across the year.

Vocal Ensemble

Students with a passion for voice and choir rehearse weekly and perform at a variety of school and community events.

Chess Club

Have some fun playing the great strategy game that is Chess. Meet new friends and improve your game to be the chess master!

Art Club

Students develop their artistic skills through experimenting with a variety of visual media.

HAMILTON SECONDARY COLLEGE
